

SAHIL VOLVAIKAR

Product Designer

PROFILE

An Architect pursuing a Master's in Interaction and Experience Design, I bring strong skills in precision, creativity, and problem-solving. My background in architectural drawing and 3D visualization has honed my attention to detail. Upon completing my degree, I will have a deep understanding of interaction design, enabling me to create user-focused solutions. I am adaptable, eager to learn, and committed to delivering innovative results.

WORK EXPERIENCE

Architectural Internship- Devra Architects

JANUARY 2021- MAY2021 (5 MONTHS)

I produced detailed architectural working drawings and collaborated with senior team members on architectural and interior design projects. Additionally, I conducted material research to ensure appropriate selections for various projects.

Junior Architect- Raya Shankwalker Architects

MAY 2023- WORKING (9 MONTHS)

I have experience producing detailed architectural working drawings, collaborating with senior team members on both architectural and interior design projects, and contributing creative solutions. Skilled in creating presentation drawings using Adobe Photoshop and InDesign, I am proficient in visual communication. Additionally, I conducted thorough material research for informed project decisions and actively participated in team meetings to foster collaboration. My expertise in 3D visualization, using Lumion, further enhanced project comprehension and client engagement.

Junior Architect Part time- Reira Group

JANUARY 2022- JULY 2024 (2+YEARS)

I produced precise architectural working drawings while ensuring adherence to project specifications and collaborated closely with senior team members on design projects, contributing creative solutions to enhance the overall design process.

Senior Product Designer- MOCI

MARCH 2024- AUGUST 2024 (6 MONTHS)

As a Senior Product Designer, I was responsible for developing products to the manufacturing stage while also innovating new product designs. In addition to this, I worked closely with carpenters and other skilled professionals, overseeing the entire production process to ensure high-quality outcomes.
